

**NPCI/2018-19/AEPS/006**

**27<sup>th</sup> September, 2018**

To,

All Member Banks – AEPS & NFS

Dear Sir/Madam,

**Subject: NFS Micro ATM Network – EMV migration of Micro ATM's**

We refer to RBI circular dated 26<sup>th</sup> May'16 on enabling EMV chip cards acceptance and processing at ATMs and MicroATMs by 30<sup>th</sup> Sep'17.

We would like to inform you that the representation made by IBA and NPCI for allowing banks to rollout EMV on ATMs and MicroATMs in phased manner up to 31<sup>st</sup> Dec. 2020 has not been acceded to by RBI. Once EMV liability shift is made effective, the liability for misuse on non-EMV enabled MicroATMs shall shift to the Acquirers.

In this regard, please note that:

Members should complete EMV Acquirer certification and ATM Terminal certification (for all combinations of L1, L2 & MATM application) at the earliest. This shall help members to start EMV roll out on MATMs. Please also note that EMV liability shift for MicroATM transactions has been deferred only till 31<sup>st</sup> Dec'18.

All members are requested to take a note of the above.

Kindly disseminate the information contained herein to the officials concerned.

For any further clarification please contact the following official:-
