

NPCI/2018-19/AePS/015

25<sup>th</sup> March, 2019

To,

All Member Banks

**Tokenize transactions to be performed between 10:00 pm and 06:00 am**

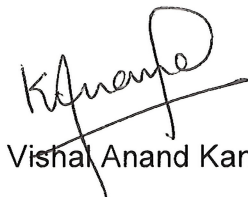

UIDAI has introduced Tokenization service whereby UID Token of each Aadhaar linked account will be provided by UIDAI. AUAs will be initiating tokenize transactions for all their Aadhaar linked accounts.

These transactions will be customer not present transactions. As banks need to fetch UID token for each of the Aadhaar linked account, we are anticipating large number of transactions. In order to avoid any impact on financial transactions during business hours, we are requesting member banks to initiate these transactions during non-peak hours, i.e. 10:00 pm and 06:00 am.

The above mentioned timing to perform Tokenize transaction is applicable with immediate effect.

Member entities are requested to kindly take a note of the same.

With Warm Regards,

Vishal Anand Kanvaty

SVP—Product Development
