NPCI/2017-18/CTS/005

May 29, 2017

To,

Direct Member banks participating in all Grids

Enhanced Features at CHI

Madam / Dear Sir,

ECPIX application at CHI server is used by direct member banks to monitor session related activities and downloading session reports for themselves as well as their indirect member bank.

NPCI has implemented a few enhanced features, the features and their benefits are listed below.

Sl.No.	New features	Benefits / usage
1	Download option for reports	1) Reports can be selected and download in a single go 2) Provision to download all reports for a select bank
2	Pending acceptance Status	1) New module "Pending Acceptance Status" in ECPIX will show the pending position for the items presented by the bank at clearing house (CH) 2) The status can be viewed for a particular session as well 3) Provision to view the BOFD wise summary based on BOFD
3	CPPS report	1) New session report for CPPS enabled banks 2) Reports in PDF and CSV format in both presentment and return session 3) Cheque number and payor branch routing number considered for matching with CPPS data

For any clarifications, bank may reach respective grid's NPCI operation team.

Thanks and Regards

Giridhar G M
