NPCI:2013-14:NACH:Circular 7

31<sup>st</sup> May, 2013

To,

All Member Banks of National Automated Clearing House (NACH) System

**Transactions Processed on National Automated Clearing House (NACH) System**

Madam / Dear Sir,

NPCI has been successfully processing the Direct Benefit Transfer (DBT) transactions on NACH system since the last 4 months. Based on the discussion and feedback received from the member banks, NPCI would like to highlight the following points which member banks need to take care while processing the DBT transactions.

- a) **Transaction Narration in Customer Account Statement** - The narration in the customer statement/passbook is extremely critical as it would let the customer identify the source and reason of receipt of benefit transfer. Therefore, it is important that the sponsor bank includes it as part of input file and destination banks' are advised to capture narration of the EBT transaction in the customer account statement. A reference may be made to **Annexure - 1** where an example illustrating the same is enclosed for ease of reference to all concerned.
- b) **Return and Response Files** -Banks are requested to refer NPCI circular Ref. No. NPCI/NACH/2013-14/Circular 4 dated 16<sup>th</sup> April, 2013 (copy enclosed) for return reason codes. The members are requested to follow the return reason codes mentioned in the above circular only.

It has also been observed that as per the NACH Procedural Guidelines, the destination banks are required to provide the status of all the inward files/transactions received at their end. The status of the transactions not received in the response file cannot be treated as a "Deemed Acceptance/Success" as there is no such status called "Deemed Acceptance/Success". This has been communicated earlier as well vide circular Ref No NPCI:2013-14:NACH:Circular 5 dated 19<sup>th</sup> April, 2013 (copy enclosed). More so, in case of Government transactions, it is important that there are no deemed success else it impacts the audit and accounting practice of government departments and their

**Registered Office** - C-9, 8<sup>th</sup> Floor, Reserve Bank of India Premises,  
Bandra-Kurla Complex, Bandra-East, Mumbai-400 051

sponsor banks. Therefore, it is once again re-iterated that all banks should take necessary steps to ensure processing of all inward transactions during the return window.

- c) **System Processing Capacity** - It is highlighted to the member banks that from 01<sup>st</sup> June, 2013 onwards, destination banks will start receiving large number of EBT transactions mainly on account of LPG subsidy from Oil Marketing Companies (OMCs). Member banks are advised to put in place necessary infrastructure having adequate capacity to process transactions in the range of 5-10 lakh or any other number in tune with the customer base and Aadhaar Numbers' seeded in a window of 2-3 hours.

2. We are enclosing a compliance form along with the circular to be submitted by the member banks on their letterhead on the following points:

- (i) Transaction Narration in customer account statement
- (ii) Processing of every inward transaction received as per the time window
- (iii) Capability to process transactions in tune with the customer base and Aadhaar numbers seeded as per session timelines.

The compliance form in this regard may be submitted to NPCI latest by 07<sup>th</sup> June, 2013.

3. It may be highlighted that NPCI reserves the right to take appropriate measures in case of failure by specific member bank to comply or violate any of the provisions of the NACH Procedural Guidelines in the interest of all the participants.

For any further help/queries, please feel free to reach us at [ach@npci.org.in](mailto:ach@npci.org.in)

With Warm Regards,

Vipin Surelia

Annexure - I

**DBT Narration for Account Statement**

**Registered Office - C-9, 8<sup>th</sup> Floor, Reserve Bank of India Premises,  
Bandra-Kurla Complex, Bandra-East, Mumbai-400 051**

**Table of Contents**

1. INPUT FILE:.....	5
2. INWARD FILE: .....	5
3. RESPONSE FILE: .....	6

**Registered Office - C-9, 8<sup>th</sup> Floor, Reserve Bank of India Premises,  
 Bandra-Kurla Complex, Bandra-East, Mumbai-400 051**

1. **Input File:**

- The Username field can now be used for narration text, to explain the customer about the transaction.
- The Narration text field is of length 20 characters, starting from position 88 till position 107. Possible usage to convey purpose Ex: DBTIOCLLPGCYL1
- The User Credit Reference no has to be unique for a customer for a day. Ex: LPG consumer no.
- The fields highlighted in the below picture are the Destination Bank IIN Number, Narration field and User Credit Reference number.

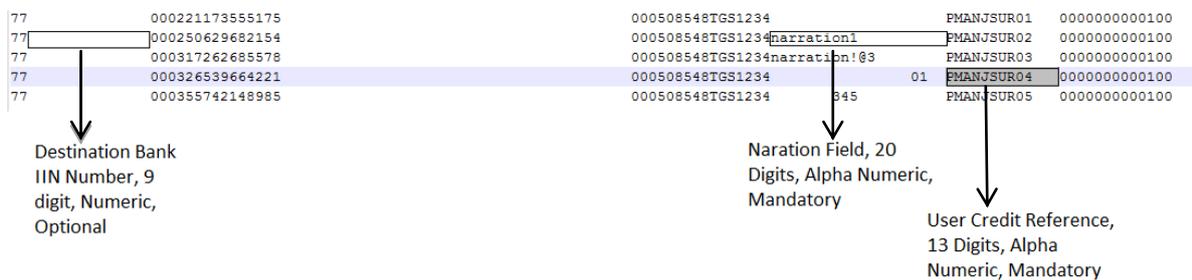

Figure 1 - Input File Format

2. **Inward File:**

- NPCI will automatically populate the IIN number into the inward file that reaches the destination Bank and also the NACH Unique reference no of 10 digits.
- The User Name field in Inward file will have the Narration value sent by Sponsor bank and the User Credit reference number (sponsor bank transaction ref. no.) field will be populated with the data taken from the Input file.
- On successful transaction processing Destination banks needs to print the value in **User Name (Narration text) + User Credit Reference (sponsor bank transaction ref. no.)** into the Account statement / Pass book for Beneficiary customers.

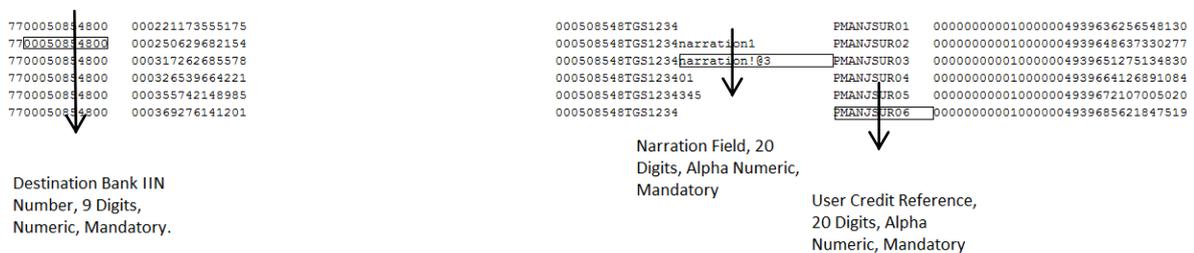

Figure 2 - Inward File Format

**Registered Office - C-9, 8<sup>th</sup> Floor, Reserve Bank of India Premises,  
 Bandra-Kurla Complex, Bandra-East, Mumbai-400 051**

3. Response File:

- The Narration field and the User Credit Reference number will be present in the Return file also.
- The Response file will contain the IIN number populated by NPCI.
- The file will have a Success flag with status (0 and 1). Where 1 is success and 0 is a failure. This will be of 1 digit and will be at the position 154 in the file.
- The Reason code will have “00” for a Success transaction or a valid failure reason code if the transaction has failed. This will be of 2 digits and will be filling positions 156 and 157 in the file.
- The combination of Narration field and the User credit reference number can be used to update the customer’s passbook.

16<sup>th</sup> April, 2013

To,

All Member Banks of Aadhaar Payments Bridge(APB), NACH – Credit and NACH – Debit

Madam/Dear Sir,

**Revised Return Reason Codes List for- National Automated Clearing House ( NACH) System**

A kind reference is invited to letter Ref. NPCI / 2012-13 / ACH / 2475 dated 22<sup>nd</sup> February 2013 (copy enclosed) on the subject 'Return reason codes for the NACH system'. On review of the return reason code 'miscellaneous' and in consultation with the participant banks, the return reason codes list is further appended with additional reason codes. We thank the banks for the suggestions. The revised return reason codes list is provided hereunder for reference as **Annexure A**.

2. Members are requested to ensure that the return reason "Miscellaneous – Others" is used only if the reason for return is not covered by any other reason code in the revised list.

3. We look forward for your continued support to make NACH a great success.

4. For any queries/further help, email at [ach@npci.org.in](mailto:ach@npci.org.in). Kindly acknowledge the receipt of the circular.

With Warm Regards,

Vipin Surelia

(Head – Cheque Clearing and NACH)

## Annexure A

<b>APB - Credit / NACH - Credit</b>	
<b>Return Codes</b>	<b>NACH Credit Return Descriptions</b>
1	Account Closed or Transferred
2	No Such Account

NPCI: 2013-14: NACH: Circular 5

19<sup>th</sup> April, 2013

To,

All Member Banks of National Automated Clearing House (NACH) System

**Serial Transactions Processing on National Automated Clearing House (NACH) using Aadhaar Number followed by Bank Account in case Aadhaar Number is not available**

Respected Madam / Sir,

NPCI is thankful to you for your support to Electronic Benefit Transfer (EBT) processing on National Automatic Clearing House (NACH) system.

2. Based on the feedback and suggestions received from different stakeholders, **a single file serial transaction format** has been devised to process the Electronic Benefit Transfer (EBT) transaction processing on NACH system for AADHAAR based transactions and Account based transactions. The file format for this single file serial transaction is attached here as an **Annexure A**. All banks that are sponsor banks and processing files on behalf of govt departments/agencies would have to get ready to get the additional details and convert into the single file format for uploading into NPCI NACH system.

3 In case of the availability of Aadhaar Number in EBT transaction, it will be processed as per the payment type **APB-Credit** on NACH system. In case, the Aadhaar Number is not available in transaction details, and instead Account Number and IFSC Code/MICR/IIN is available, it will be processed on the basis of Bank Account Number as per the payment type **NACH-Credit** on the NACH system. Therefore, the destination banks have to get ready with NACH-Credit receiving capability at the earliest.

4. For the processing of inward EBT transaction processing, destination banks will receive two separate files i.e. identical to APB-Credit and NACH-Credit as two distinct files. However, sponsor bank will receive a single file consist of Aadhaar based as well as Account based transactions as a final response file from NACH system to reconcile with the original single file uploaded.

5. As per the NACH Procedural Guidelines, banks have to confirm the status of all the inward transactions received at an individual transaction level in the return response file and the status of the transaction not received cannot be treated as a deemed success. Banks are requested to adhere to the NACH Procedural Guidelines.

6. This single file serial transaction format for EBT has a provision to capture additional data point like Scheme code, district code and Village / Block code to cover comprehensive MIS coverage.

7. Banks are requested to initiate onboarding process at the earliest on the single file serial transaction file format on NACH system.
