Introduction

CSR covers the entire process by which an organisation approaches, defines and develops its relationship with stakeholders for the common good, and demonstrates its commitment in this regard by adoption of appropriate strategies and projects. The CSR is not charity or mere donations but a way of going beyond business as usual, creating shared value and contributing towards social and environmental good.

The core element of CSR is the continuing commitment by NPCI to ethical principles and protection and care of the environment whilst improving the quality of life of all stakeholders including local communities and society at large. NPCI aims at creating shared value for all stakeholders involved in our CSR journey.

Objective

NPCI's business philosophy highlights the theme of respect and collaboration. NPCI has undertaken CSR with the basic aim of contributing towards easing distress and aiding in advancement of society while engaging with stakeholders thereby becoming a socially responsible corporate citizen. Through a series of interventions NPCI seeks to mainstream economically, physically and socially challenged groups and to draw them into the cycle of growth, development and empowerment. This policy will be applicable to NPCI and all its subsidiaries

Scope

Ministry of Corporate Affairs (MCA), in exercise of its powers under sub-section (3) of Section 1 of the Companies Act, 2013 and vide Notifications dated 27th February, 2014, has appointed 1st April, 2014 as the date, on which Section 135 and Schedule VII of the Act has come into force. Further, MCA vide Notification dated 27.2.2014, has notified Companies (Corporate Social Responsibility Policy) Rules, 2014, to be effective from 1st April, 2014. The CSR Policy has been prepared by National Payments Corporation of India (NPCI) in line with the provisions of Section 135 of the Companies Act 2013 and will be executed basis the present state and all future amendments to Section 135 and Schedule VII of the Companies Act, 2013.

The CSR amendment effective from 22nd January, 2021 is a clear transition from "Comply or Explain (COREX)" to "Comply or Pay Penalty (COPP)". A number of changes have been introduced for carrying out CSR activities including changes with respect to treatment of unspent CSR funds, 'unspent CSR account', 'transfer to Fund specified under Schedule VII, National Unspent CSR Fund, detailed annual report on CSR, CFO certification, impact assessment, defining 'ongoing projects', limiting administration cost to 5% etc. The Ministry of Corporate Affairs allowed any type of COVID-19 spending particularly in preventive healthcare or sanitation and disaster management to be covered under CSR expenditure. MCA has issued a fresh circular on 22nd April, 2021 mentioning that CSR funds for setting up "makeshift hospitals and temporary Covid care facilities" would be treated as an eligible CSR activity.

These changes have been accommodated in the CSR policy and shall apply to all CSR initiatives, projects, programme, and activities undertaken by NPCI. This Policy shall serve as a guiding

document to help identify, execute, and monitor CSR projects in keeping with the spirit of the Policy.

Through a series of interventions NPCI seeks to a) mainstream economically, physically and socially challenged groups and draw them into the cycle of growth, development and empowerment through education leading to livelihood and b) Encourage and create sustainable conservation by supporting research, capacity building and projects to avoid, mitigate and reduce the negative impact created by anthropogenic factors on our environment.

Purpose of the Policy

NPCI is committed to identifying and supporting programs and projects aimed at:

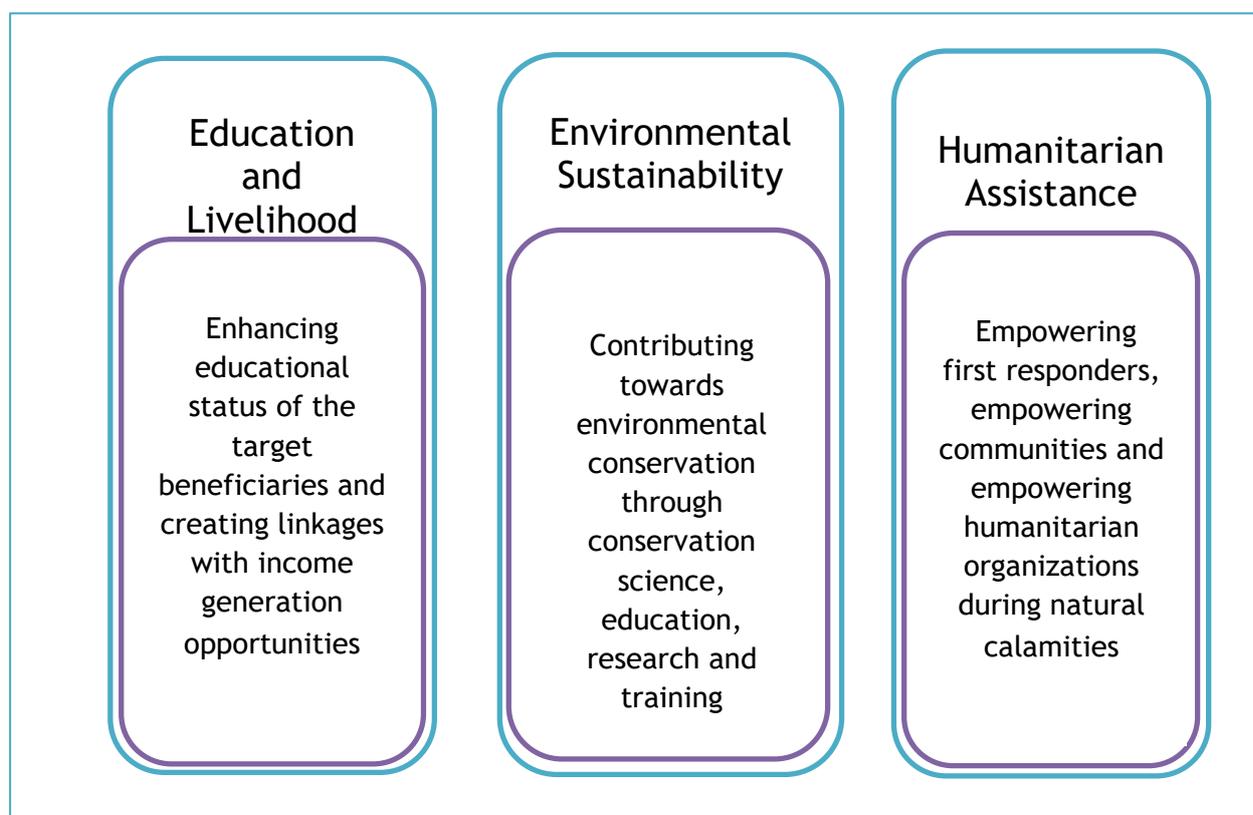

1. Developing and advancing the community, in particular, those at the bottom of the pyramid which are unequally endowed/enabled, and also
2. Encourage and create sustainable conservation by supporting research, capacity building projects, and reducing negative impact on the environment.

This policy will serve as a guiding document to help identify, execute and monitor CSR projects in keeping with the spirit of the policy.

The CSR policy serves as a self-regulating mechanism for the Company’s CSR activities and enable adherence to laws, ethical standards, and international practices in this regard. This policy is applicable, with immediate effect, to NPCI.

CSR Framework at NPCI

NPCI demonstrates its alignment with the CSR laws by contributing to the economic and social development of the communities and safeguarding the environment. While these two components are universal and will be at the center of most initiatives, there are various components which make up this huge canvas. NPCI interventions are focused on 3 core themes:

Education and Livelihood

NPCI believes that every individual is entitled to the Right to Education. In addition to educating masses by providing schemes, projects and activities for inclusion of and greater access for those excluded or with limited access to education. NPCI aims to undertake initiatives that will enhance the educational status of underserved sections of society. While lifting the status and standard of those weakest in these areas, we will also endeavor to take the best and make them even better. Additionally, support towards education for the underprivileged will be looked at in a way that platforms/programs are developed to ensure our holistic involvement in providing support to meritorious students to pursue their education (secondary and higher) till completion.

The aspiration of any individual is to become an educated and learned citizen of the country and in turn earn a livelihood which can help him/her create opportunities for development of self and the community. We endeavor to create linkages that will attempt to do the above in a manner that

addresses the need for educational support, which is also linked to income generation, including livelihoods, and strengthens the financial status of the beneficiaries.

Environmental Sustainability

NPCI believes in sustainable development and is committed to the conservation of the environment as a responsibility to present and future generations of the country and the planet. We endeavor to address the support for sustainable conservation through projects in conservation science, research, education and training.

Under this focus area, NPCI aims to:

1. Build capacities of communities and of critical stakeholders in protecting India's rich biodiversity.
2. Ensuring sustainable development of resources integral to the wellbeing of India's biodiversity and
3. Create mitigation parameters for pressing environmental challenges

Humanitarian Assistance

India has been vulnerable to natural disasters on account of its unique geo-climatic conditions. Floods, droughts, cyclones, earthquakes and landslides have been recurrent phenomena and India has witnessed a number of natural disasters impacting millions of people. The loss in terms of private, community and public assets has been astronomical. In the event of a major natural catastrophe or crisis situation, being a socially responsible corporate citizen, NPCI reaffirms its commitment to join hands with the government, community and civil society in providing relief assistance to communities/regions which are impacted by natural disasters. NPCI seeks to assist humanitarian relief efforts in a manner that benefits the nature of the event and its impact on the region in which it has occurred.

Natural disasters erode away not just at the financial and infrastructural resources of the country but also degrade the quality of life of individuals and communities directly and indirectly impacted by natural calamities.
