## Section 2 - Introduction

### 2.1 About NPCI

NPCI is a Company registered under Section 25 of the Companies Act, 1956 (corresponding to Section 8 of The Companies Act, 2013) with its Registered Office in Mumbai, India. NPCI was promoted by 10 (Ten) banks in India under the aegis of the Indian Bank's Association with majority shareholding by Public Sector Banks. Presently, 54 (Fifty-Four) banks are shareholders of NPCI. Out of which 17 (Seventeen) are Public Sector Banks (PSB), 17 (Seventeen) Private Sector Banks, 3 (Three) Foreign Banks, 10 (Ten) Multi State Cooperative Banks and 7 (Seven) Regional Rural Banks.

The vision, mission and values of NPCI are: Vision - To be the best payments network globally, Mission - Touching every Indian with one or other payment services and to make our mission possible, we live and work by six core values: Passion for Excellence, Collaboration, Customer Centricity, Agility, Security and Innovation.

NPCI, during its journey, has made a significant impact on the retail payment systems in the country. Dedicated to the nation by our former President, Shri Pranab Mukherjee, endorsed by the Hon'ble Prime Minister, Shri Narendra Modi and later made the card of choice for the ambitious Pradhan Mantri Jan Dhan Yojana, RuPay is now a known name. RuPay is an indigenously developed Payment System - designed to meet the expectation and needs of the Indian consumer, banks and merchant eco-system. The alliances with international network partners (Discover Financial Services, Japan Credit Bureau and China Union Pay) provides valuable access to global acceptance footprint and offer world class payment solutions to RuPay cardholders.

NPCI aim is to transform India into a 'less-cash' society by touching every Indian with one or other payment services. With each passing year we are moving towards our vision to be the best payments network globally.

### 2.2 Objective of this RFP

The objective of this RFP is to procure an appropriate Breach & Attack Simulation Solution at NPCI.

### 2.3 Cost of the RFP

The Bidder shall bear all costs associated with the preparation and submission of its bid and NPCI will, in no case, be held responsible or liable for these costs, regardless of the conduct or outcome of the bidding process.

### 2.4 Due Diligence

The Bidders are expected to examine all instructions, terms and specifications stated in this RFP. The Bid shall be deemed to have been submitted after careful study and examination of this RFP document. The Bid should be precise, complete and in the prescribed format as per the requirement of this RFP document. Failure to furnish all information or submission of a bid not responsive to this RFP will be at the Bidders' risk and may result in rejection of the bid. Also the decision of NPCI on rejection of bid shall be final and binding on the bidder and grounds of rejection of Bid should not be questioned after the final declaration of the successful Bidder.

The Bidder is requested to carefully examine the RFP documents and the terms and conditions specified therein, and if there appears to be any ambiguity, contradictions, inconsistency, gap and/or discrepancy in the RFP document, Bidder should seek necessary clarifications by e-mail as mentioned in Section-1. Any query received after the last date for submission of pre-bid queries as given in Section-1 will not be considered.

### 2.5 Ownership of this RFP

The content of this RFP is a copy right material of National Payments Corporation of India. No part or material of this RFP document should be published in paper or electronic media without prior written permission from NPCI.

### Section 3 - Scope of Work

## Section 7 - Bid Evaluation

**7.1 Examination of Eligibility Bids**

NPCI will examine the bids to determine whether they are complete; whether the required information have been provided as underlined in the bid document; whether the documents have been properly signed and whether the bids are generally in order. Eligibility and compliance to all the forms and Annexure would be the first level of evaluation. Only those Bids which comply to the eligibility criteria will be taken up for further technical evaluation. NPCI may waive any minor informality, non-conformity or irregularity in a bid that does not constitute a material deviation provided such waiver does not prejudice or affect the relative ranking of any Bidder. If a Bid is not substantially responsive, it will be rejected by NPCI and may not subsequently be made responsive by the Bidder by correction of the nonconformity. NPCI's determination of bid responsiveness will be based on the content of the bid itself. NPCI may interact with the Customer references submitted by Bidder, if required.

**7.2 Examination of Technical Bids**

The Technical Evaluation will be based on the following broad parameters:

- a. Compliance to Technical Specifications as specified in the RFP.
- b. NPCI reserves the right to call for presentation and discussions on the approach of execution of project etc., from the short-listed Bidders based on the technical bids submitted by them to make an evaluation. Such presentations and minutes of meetings will become part of the technical bid.
- c. Review of written reply, if any, submitted in response to the clarification sought by NPCI, if any.
- d. Submission of duly signed compliance statement as stipulated in Annexures. Details / Brochures containing details about the proposed hardware are to be enclosed.
- e. To assist in the examination, evaluation and comparison of bids, NPCI may, at its discretion, ask any or all the Bidders for clarification and response shall be in writing and no change in the price or substance of the bid shall be sought, offered or permitted.
- f. NPCI may interact with the Customer references submitted by bidder, if required.
- g. NPCI reserves the right to shortlist bidders based on technical evaluation criteria.
- h. Bidder should re-submit 2 detailed Bill of material, BOM (one with commercial to IT procurement team and another without commercial to user team) within 3 days if there are any shortfall in BOM found during technical presentation.

#### Definitions

1. "Availability" means the time for which the services and facilities are available for conducting operations on the AIC system including application and associated infrastructure.  
Availability is defined as (%) = 
$$\frac{(\text{Operation Hours} - \text{Downtime})}{(\text{Operation Hours})} * 100\%$$
2. The business hours are 24\*7\*365 on any calendar day the NPCI is operational.
3. All the infrastructure of Data Center, Disaster Recovery site, Offices/Branches will be supported on 24x7 basis.
4. The "Operation Hours" for a given time frame are calculated after deducting the planned downtime from "Operation Hours". The Operation Hours will be taken on 24x7 basis, for the purpose of meeting the Service Level requirements i.e. availability and performance measurements both.
5. "Downtime" is the actual duration for which the system was not able to service NPCI or the Clients of NPCI, due to System or Infrastructure failure as defined by NPCI and agreed by the Bidder.
6. "Scheduled Maintenance Time" shall mean the time that the System is not in service due to a scheduled activity as defined in this SLA. The scheduled maintenance time would not be during business hours. Further, scheduled maintenance time is planned downtime with the prior permission of NPCI.
7. "Incident" refers to any event / abnormalities in the functioning of any of IT Equipment / Services that may lead to disruption in normal operations of the Data Centre, System or Application services.

#### Interpretation & General Instructions

1. Typical Resolution time will be applicable if systems are not available to the NPCI's users.
2. The SLA parameters shall be monitored on a monthly basis as per the individual SLA parameter requirements. The Bidder is expected to provide the following service levels. In case the service levels defined in the tables below cannot be achieved, it shall result in a breach of contract and invoke the penalty clause.
3. A Service Level violation will occur if the Bidder fails to meet Minimum Service Levels on a monthly basis for a particular Service Level.
4. Quarterly SLAs would be analyzed. However, there would be month wise SLAs and all SLA targets have to be met on a monthly basis.
5. Overall Availability and Performance Measurements will be on a quarterly basis for the purpose of Service Level reporting. Month wise "Availability and Performance Report" will be provided by the Bidder for every quarter in the NPCI suggested format and a review shall be conducted based on this report. Availability and Performance Report provided to NPCI shall contain the summary of all incidents reported and associated performance measurement for that period.
6. The primary intent of Penalties is to ensure that the system performs in accordance with the defined service levels. Penalties are not meant to be punitive or, conversely, a vehicle for cutting fees.

**Prohibition of Conflicting Activities:** The Bidder shall not engage and shall cause their personnel not to engage in any business or professional activities that would come in conflict with the activities assigned to them under this RFP.

### 8.25 Exit option and contract re-negotiation

- a) NPCI reserves its right to cancel the order in the event of happening of one or more of the situations as mentioned in the "Order Cancellation" herein under.
- b) Notwithstanding the existence of a dispute, and/or the commencement of arbitration proceedings, the Bidder should continue to provide the facilities to NPCI at NPCI's locations.
- c) Reverse transition mechanism would be activated in the event of cancellation of the contract or exit by the bidders prior to expiry of time for awarding the final bid / the contract. The Bidder should perform a reverse transition mechanism to NPCI or its selected vendor. The reverse transition mechanism would facilitate an orderly transfer of services to NPCI or to an alternative 3rd party / vendor nominated by NPCI. Where NPCI elects to transfer the responsibility for service delivery to a number of vendors, NPCI will nominate a vendor who will be responsible for all dealings with the Bidder regarding the delivery of the reverse transition services.
- d) The reverse transition services to be provided by the Bidder shall include the following:
  - i. The Bidder shall suitably and adequately train NPCI or its designated team for fully and effectively manning, operating the Devices.
  - ii. Bidder shall provide adequate documentation thereof.
  - iii. The Bidder shall jointly manage the Devices with NPCI or designated team for a reasonable period of time
- e) Knowledge Transfer: The Bidder shall provide such necessary information, documentation to NPCI or its designee, for the effective management and maintenance of the Deliverables under this RFP/Purchase Order/contract. Bidder shall provide documentation (in English) in electronic form where available or otherwise a single hardcopy of all existing procedures, policies and programs required for supporting the Services.
- f) Warranties:
  1. All the warranties held by or in the name of the bidder shall be assigned or transferred as-is, in the name of NPCI. The bidder shall execute any and all such documents as may be necessary in this regard.
  2. The bidder shall return confidential information and will sign off and acknowledge the return of such confidential information.
  3. The bidder shall provide all other services as may be agreed by the parties in connection with the reverse transition services. However, in case any other services, in addition to the above are needed, the same shall be scoped and priced.
  4. The bidder recognizes that considering the enormity of the assignment, the transition services listed herein are only indicative in nature and the bidder agrees to provide all assistance and services required for fully and effectively transitioning the services provided by the bidder under the scope, upon termination or expiration thereof, for any reason whatsoever.
- g) The rates for availing services during reverse transition period would be the same as payable during the contract period for the respective services as contained and provided in this RFP.
- h) During which the existing Bidder would transfer all knowledge, know-how and other things necessary for NPCI or new bidder to take over and continue to manage the services. The Bidder

agrees that the reverse transition mechanism and support during reverse transition will not be compromised or affected for reasons whatsoever is for cancellation.

- i) NPCI shall have the sole and absolute discretion to decide whether proper reverse transition mechanism over a period of 6 months, has been complied with. In the event of the conflict not being resolved, the conflict will be resolved through Arbitration.
- j) NPCI and the successful bidder shall together prepare the Reverse Transition Plan. However, NPCI shall have the sole decision to ascertain whether such Plan has been complied with.
- k) The Bidder agrees that in the event of cancellation or exit or expiry of the RFP/Purchase Order/contract it would extend all necessary support to NPCI or its selected vendors as would be required

### 8.26 Extension of Contract

The bidder shall be required to consistently execute, in a successful and professional manner, the jobs assigned under this RFP or subsequent Purchase Order / Contract, as shall be entered by NPCI with the Bidder, to the satisfaction of and as decided by the NPCI up to a period of three (3) years (completion period) reckoned from the date of commencement of the services and may be extended for further period on satisfactory performance by bidder. However even in case, the bidder is not interested to extend the Contract for a further period, bidder shall be essentially required to execute the work at least for next 6 months' period on the same rates and terms & conditions of the Contract. NPCI has right to alter (increase or decrease) the number of resources. NPCI has right to place repeat order to the bidder for any resources mentioned in the Contract. The contract shall be co-terminus with the Purchase orders issued unless extended by NPCI.

### 8.27 Order Cancellation

NPCI reserves its right to cancel the order in the event of one or more of the following situations, that are not occasioned due to reasons solely and directly attributable to NPCI alone;

- i. Delay in delivery is beyond the specified period as set out in the Purchase Order before acceptance of the product; or,
- ii. Serious discrepancy in the quality of service expected.
- iii. If a Bidder makes any statement or encloses any form which turns out to be false, incorrect and/or misleading or information submitted by the bidder turns out to be incorrect and/or bidder conceals or suppresses material information.

In case of order cancellation, any payments made by NPCI to the Bidder for the particular service would necessarily have to be returned to NPCI with interest @ 15% per annum from the date of each such payment. Further the Bidder would also be required to compensate NPCI for any direct loss incurred by NPCI due to the cancellation of the Purchase Order and any additional expenditure to be incurred by NPCI to appoint any other Bidder. This is after repaying the original amount paid.

### 8.28 Termination of Purchase Order/Contract

For Convenience: NPCI, by written notice sent to Bidder, may terminate the Purchase Order/ contract in whole or in part at any time for its convenience giving three months' prior notice. The notice of termination may specify that the termination is for convenience the extent to which Bidder's performance under the contract is terminated and the date upon which such termination become effective. NPCI shall consider request of the bidder for pro-rata payment till the date of termination.

For Insolvency: NPCI at any time may terminate the contract by giving written notice to Bidder, if Bidder becomes bankrupt or insolvent. In this event, termination will be without compensation to Bidder, provided that such termination will not prejudice or affect any right of action or remedy that has accrued or will accrue thereafter to NPCI.

For Non-Performance: NPCI reserves its right to terminate the contract in the event of Bidder's repeated failures (say more than 3 occasions in a calendar year to maintain the service level prescribed by NPCI).

### 8.29 Effect of Termination

- The Bidder agrees that it shall not be relieved of its obligations under the reverse transition mechanism notwithstanding the termination of the assignment.

## RFP for procurement of Breach & Attack Simulation Solution

- Same terms (including payment terms) which were applicable during the term of the contract should be applicable for reverse transition services
- The Bidder agrees that after completion of the Term or upon earlier termination of the assignment the Bidder shall, if required by NPCI, continue to provide facility to NPCI at no less favorable terms than those contained in this RFP. In case NPCI wants to continue with the Bidder's facility after the completion of this contract then the Bidder shall offer the same terms to NPCI.
- NPCI shall make such prorated payment for services rendered by the Bidder and accepted by NPCI at the sole discretion of NPCI in the event of termination, provided that the Bidder is in compliance with its obligations till such date. However, no payment for "costs incurred, or irrevocably committed to, up to the effective date of such termination" will be admissible. There shall be no termination compensation payable to the Bidder.
- NPCI may make payments of undisputed amounts to the Bidder for services rendered till the effective date of termination. Termination shall be without prejudice to any other rights or remedies NPCI may be entitled to hereunder or at law and shall not affect any accrued rights or liabilities of either party nor the coming into force or continuation in force of any provision hereof which is expressly intended to come into force or continue in force on or after such termination.
- Upon cancellation of contract/completion of period of service, the Bidder should peacefully handover the legal possession of all the assets provided and obtains discharge from NPCI. NPCI also reserves the right to assign or allot or award the contract to any third party upon cancellation of the availed services.

### 8.30 Force Majeure

For purpose of this clause, "Force Majeure" means an unforeseeable event beyond the control of the successful and not involving NPCI or the successful's fault or negligence.

If either party is prevented, restricted, delayed or interfered by reason of: a) Fire, explosion, cyclone, floods, droughts, earthquakes, epidemics; b) War, revolution, acts of public enemies, blockage or embargo, riots and civil commotion; c) Any law, order, proclamation, ordinance or requirements of any Government or authority or representative of any such Government, including restrictive trade practices or regulations; d) Strikes, shutdowns or labor disputes which are not instigated for the purpose of avoiding obligations herein; or e) Any other circumstances beyond the control of the party affected; then notwithstanding anything here before contained, the party affected shall not be liable for non-performance or delay in performance of its obligations contained herein provided the party so affected uses its best efforts to remove such cause of non-performance, and when such cause is removed the party shall continue performance in accordance with the terms of the Purchase Order.

Each of the parties agrees to give written notice forthwith to the other upon becoming aware of an event of Force Majeure, the said notice to contain details of the circumstances giving rise to the event of Force Majeure. If the event of Force Majeure continues for more than twenty (20) days, either party shall be entitled to terminate the Purchase Order at any time thereafter by giving written notice to the other party

### 8.31 Resolution of Disputes

All disputes or differences between NPCI and the bidder shall be settled amicably. If, however, the parties are not able to resolve them, the same shall be settled by arbitration in accordance with the applicable Indian Laws, and the award made in pursuance thereof shall be binding on the parties. Any appeal will be subject to the exclusive jurisdiction of courts at Mumbai.

NPCI and the successful Bidder shall make every effort to resolve amicably by direct informal negotiation; any disagreement or dispute arising between them under or in connection with this RFP.

If, however, NPCI and successful Bidder are not able to resolve them, following dispute resolution mechanism shall be applied:

1. In case of Dispute or difference arising between NPCI and the successful Bidder relating to any matter arising out of or connected with this RFP, such disputes or difference shall be settled in accordance with the Arbitration and Conciliation Act, 1996. The arbitral tribunal shall consist of 3 arbitrators, one each to be appointed by NPCI and the successful Bidder. The third Arbitrator shall be chosen by mutual discussion between NPCI and the successful Bidder.

2. Arbitration proceedings shall be held at Mumbai, and the language of the arbitration proceedings and that of all documents and communications between the parties shall be English;
3. The decision of the majority of Arbitrators shall be final and binding upon NPCI and Successful Bidder. The cost and expenses of Arbitration proceedings will be paid as determined by mutual chosen third Arbitrator. However, the expenses incurred by each party in connection with the preparation, presentation, etc., of its proceedings as also the fees and expenses paid to the arbitrator appointed by such party or on its behalf shall be borne by each party itself; and
4. Where the value of the contract is Rs.1.00 Crore and below, the disputes or differences arising shall be referred to the Sole Arbitrator. The Sole Arbitrator should be appointed by mutual consent between the parties.
5. Any appeal will be subject to the exclusive jurisdiction of courts at Mumbai.

#### **8.32 Compliance with Applicable Laws of India**

B6	For the proposed solution, The Supplier should notify the customer immediately when security vulnerability is discovered within the solution.	Must Have
B7	The solution must include discrete privileged and user account levels with specific permissions for each (e.g. RBAC)	Must Have
B8	The Solution should have Multi-Factor Authentication to access Platform.	Must Have
B9	The solution must include basic user policy controls for account access and password management	Must Have
B10	The proposed solution should respond with a generic error message regardless of whether the user ID or password was incorrect. The message should give no indication of the status of an existing account.	Must Have
B11	The solution must generate an audit log of all operations including individual user actions	Must Have
B12	The Supplier should ensure passwords for services shall not be displayed during authentication nor stored in an unencrypted form.	Must Have
B13	The Supplier proposed solution should secure audit logs from tampering.	Must Have
<b>C</b>	<b>Security Solutions Support &amp; Integration</b>	
C1	The solution must directly integrate with common commercial SIEM solutions	Must Have
C2	The solution must directly integrate with common commercial endpoint security controls	Must Have

## RFP for procurement of Breach & Attack Simulation Solution

C3	The solution must validate network security control effectiveness.	Must Have
C4	The solution must validate email security control effectiveness.	Must Have
C5	The solution must include support for the POP3, IMAP, and SMTP email protocols with SSL and TLS.	Must Have
C6	The solution should have technical integrations available for specific vendors where applicable (e.g. SIEMs, ITSM's, ticketing systems, Vulnerability assessment tools, log management, Firewalls, SOAR, automation/orchestration, analytics platforms, threat intelligence platforms, etc.)	Must Have
<b>D</b>	<b>Use Cases Support</b>	
D1	Solution should have Ability to simulate breach methods across the complete cyber-attack kill chain including NIST, MITRE att&ck complete framework (e.g., infiltration, exfiltration etc)	Must Have
D2	The solution should include attacks simulations relevant to information technology targets, FinTech Targets, BFSI Targets, NBFC Targets.	Must Have
D3	The solution must include library of attacks that exploit common application vulnerabilities & Weaponize Known CVE's.	Must Have
D4	The solution must be able to Represent Vulnerability Risk scores (Low, Medium, High, Critical) based on proven cybersecurity risk assessment models. (e.g. DREAD, CVSSV3, NIST)	Must Have
D5	Solution must provide time-stamp of the attack across multiple geographies for all attack vectors for correlation & Validation.	Good to Have
D6	Solution should have Ability to test data loss prevention (DLP) implementation, methodology, and configuration along with other exfiltration techniques to test outbound flows of data to ensure protection of critical information	Must Have
D7	Solution should have Ability to simulate Infiltration techniques for breaching a network or infecting a host - Via Email, Web & WAF.	Must Have
D8	Solution should have Ability to simulate Machine-based attacks - known vulnerabilities on internet-facing systems, misconfiguration of network perimeter controls, exposed applications, etc.	Must Have
D9	Solution should have ability to conduct the complete full kill chain of the attack. That is end to end attack execution from pre exploitation stage to exploitation to post exploitation.	Must Have
D10	Solution should have Ability to test attacker lateral movement through a single machine (once successfully within a network) - e.g., brute force or pass-the-hash techniques to steal credentials for sensitive servers, moving across network segments in search for valuable data	Must Have
D11	Solution should support Ransomware simulations	Must Have
D12	Solution should support Email security assessment (improper configuration or implementation of email filters)	Must Have
D13	Solution should support Endpoint Assessment - test security state of endpoints by comprehensively testing: automated behavioural detection (EDR), signature-based detection (anti-virus), known vulnerabilities including Windows patches.	Must Have
D14	Solution should support Extracting credentials from memory (Endpoint privilege escalation test)	Must Have
D15	Solution should support Executing local privilege elevation exploits (Endpoint privilege escalation test)	Must Have
D16	Solution should support Transfer and/or execution of malware on a test system (Endpoint malware download and execution test)	Must Have
D17	Solution should support Access, connection, or data transfer attempt (Network segmentation test)	Must Have
D18	Solution should support Data exfiltration attempt, such as file upload (Network data loss prevention (DLP test) on cloud drives (e.g. Gdrive, onedrive, dropbox, slack etc.)	Must Have
D19	Solution should support Access or data transfer to a malicious site (Secure web gateway / proxy test)	Must Have

## RFP for procurement of Breach & Attack Simulation Solution

D20	Solution should support Proxy tests - HTTP/HTTPS inbound/outbound exposure to malicious or compromised websites (web malware, malicious scripts)	Must Have
D21	Solution should have Ability to deliver safe tests with no chances of interfering with business operations, and no user interference when deployed on production assets	Must Have
D22	Solution should have Ability to perform continuous analysis and Historical trending ( alert, track, analyse, and remediate advanced malware that may at first appear clean or that evades initial defences and is later identified as malicious)	Good to Have
D23	Solution should have Ability to simulate breach methods based on attacker profile (APT) and data assets to be protected	Must Have
D24	Solution should have Mechanism to identify remediation options and recommendations, prioritize severity of test findings and actionable remediation for each security control.	Must Have
D25	The Solution should provide POA (Proof of acceptance) for manual assessments / simulation along with Mitigation steps.	Must Have
D26	Solution should Continuously simulate breach methods to address changing risks, and track security posture via risk trending and historical reports.	Must Have
D27	Solution should have Test Security Operations Centre (SOC)rules by simulating a multi-vector attack	Must Have
D28	Solution should have Ability to create custom use cases / simulations attacks according to client requirement	Must Have
D29	Solution should Test effectiveness of security controls (real behaviour and outcome of controls) - e.g., identify configuration errors or defects	Must Have
D30	Solution Knowledge base should be extensive & should Describe how the library of breach and attack methods are created, managed, Updated and mapped to threat models.	Good to Have
D31	The solution should provide technology vendor-specific remediation signatures and prioritization as mitigation recommendations	Must Have
D32	The Supplier proposed solution should have capabilities to allow for the detection or prevention of unauthorized modification of data.	Must Have
D33	Solution should able to do a lateral movement assessment from a single endpoint	Good to Have
D34	The Supplier should validate and measure the detection and response capabilities of security pipelines and detection analysts in the SOC	Must Have
D35	The Supplier should verify SIEM alerts by simulating malicious activity (injecting events into a SIEM) to gauge whether it correlates them to generate the right alert (Monitoring SIEM tests)	Must Have
D36	The Supplier should address configuration, segmentation or implementation errors throughout the entire lifecycle of a security product	Must Have
D37	The Supplier should support processes to request and run network penetration tests against the service and report the results.	Good to Have
D38	Solution should check inbound and outbound penetration of web gateway.	Good to Have
D39	Solution should have integrated Email phishing simulation module	Must Have
D40	Solution should have integrated RECON or Reconnaissance or attack surface management feature built in.	Good to Have
D41	The solution should supports Azure & AWS cloud endpoints.	Must Have
D42	The solution should support use cases specific to Kubernetes, Docker, Container deployments	Must Have
<b>E</b>	<b>Dashboards, Reporting &amp; Automation</b>	
E1	The solution must include graphical dashboards of the results of security effectiveness validation	Must Have

## RFP for procurement of Breach & Attack Simulation Solution

E2	The solution must include at least one graphical dashboard that provides quantitative results by numeric count and by percentage of attacks by stage	Must Have
E3	The solution dashboard must include summary reporting and visual graphs of the results of executed attacks	Must Have
E4	The solution must include the ability to export primary dashboards, reporting in PDF format	Must Have
E5	The solution must include REST API support with published documentation.	Must Have
E6	The API must include support for both JSON and XML formats	Must Have
E7	The API must include the ability to create, update, and execute attacks and sequences of attacks and retrieve their results	Must Have
E8	The API must include the ability to export data used in any graphical dashboards and reports	Must Have

In case any of the above requirements are not generic in nature, it may be brought to the notice of NPCI through pre-bid mechanism.

## RFP for procurement of Breach & Attack Simulation Solution

### Section 11 - Documents to be put in Envelope/Folder 'B' (Bidder's Letter Head)

#### Annexure J - Technical Compliance

Category	Specification	Compliance (Yes/No)
<b>A</b>	<b>Infrastructure &amp; Deployment</b>	
A1	The solution must be deployable in a production on-premises/on-premises Private Cloud/Public cloud/Public-Private Hybrid Cloud environments.	
A2	For the proposed Solution, The Simulation agent should be compatible on Windows, Linux (All flavours including but not limited to Ubuntu, RHEL, Cent OS), MAC OS etc.	
A3	The solution must support proxy communications to the Internet. Simulation Agents installed must support proxy communications to the Breach & Attack simulation solution's cloud platform counterpart.	
A4	The Solution agent component must be installable as a software package (Publishing it through group policy) and an image/Golden image.	
A5	For the proposed solution, Agents will be installed on minimum set of endpoints. Considering mentioned setup supplier should be able to run and provide all required use cases/simulations effectively.	
A6	The solution must be easily and automatically updated either from the server itself or via manual updates	
A7	For the proposed Solution, All installed agents/simulators should have capability to run assessments/simulations as local user privilege and/or admin user privilege	
<b>B</b>	<b>Solution Security &amp; Compliance</b>	
B1	For the proposed solution, If cloud based then all data collected/processed should be secure in vendors cloud instance.	
B2	For the proposed solution, If cloud based then all data collected/processed to be stored only in INDIA.	
B3	For the proposed solution, If cloud based then all data collected/processed should be secure in a separate cloud instance, dedicated for NPCI.	
B4	For the proposed solution, The Supplier shall describe/provide assurance that when the customer deletes data, the data is completely gone and not resident anywhere on the supplier infrastructure within the solution.	
B5	For the proposed solution, The Supplier should ensure access to sensitive information is restricted to only personnel with a need to know basis with Granular User Role management.	
B6	For the proposed solution, The Supplier should notify the customer immediately when security vulnerability is discovered within the solution.	
B7	The solution must include discrete privileged and user account levels with specific permissions for each (e.g. RBAC)	
B8	The Solution should have Multi-Factor Authentication to access Platform.	
B9	The solution must include basic user policy controls for account access and password management	
B10	The proposed solution should respond with a generic error message regardless of whether the user ID or password was incorrect. The message should give no indication of the status of an existing account.	
B11	The solution must generate an audit log of all operations including individual user actions	
B12	The Supplier should ensure passwords for services shall not be displayed during authentication nor stored in an unencrypted form.	
B13	The Supplier proposed solution should secure audit logs from tampering.	
<b>C</b>	<b>Security Solutions Support &amp; Integration</b>	
C1	The solution must directly integrate with common commercial SIEM solutions	

## RFP for procurement of Breach & Attack Simulation Solution

C2	The solution must directly integrate with common commercial endpoint security controls	
C3	The solution must validate network security control effectiveness.	
C4	The solution must validate email security control effectiveness.	
C5	The solution must include support for the POP3, IMAP, and SMTP email protocols with SSL and TLS.	
C6	The solution should have technical integrations available for specific vendors where applicable (e.g. SIEMs, ITSM's, ticketing systems, Vulnerability assessment tools, log management, Firewalls, SOAR, automation/orchestration, analytics platforms, threat intelligence platforms, etc.)	
<b>D</b>	<b>Use Cases Support</b>	
D1	Solution should have Ability to simulate breach methods across the complete cyber-attack kill chain including NIST, MITRE att&ck complete framework (e.g., infiltration, exfiltration etc)	
D2	The solution should include attacks simulations relevant to information technology targets, FinTech Targets, BFSI Targets, NBFC Targets.	
D3	The solution must include library of attacks that exploit common application vulnerabilities & Weaponize Known CVE's.	
D4	The solution must be able to Represent Vulnerability Risk scores (Low,Medium,High,Critical) based on proven cybersecurity risk assessment models. (e.g. DREAD, CVSSV3, NIST)	
D5	Solution must provide time-stamp of the attack across multiple geographies for all attack vectors for correlation & Validation.	
D6	Solution should have Ability to test data loss prevention (DLP) implementation, methodology, and configuration along with other exfiltration techniques to test outbound flows of data to ensure protection of critical information	
D7	Solution should have Ability to simulate Infiltration techniques for breaching a network or infecting a host - Via Email, Web & WAF.	
D8	Solution should have Ability to simulate Machine-based attacks - known vulnerabilities on internet-facing systems, misconfiguration of network perimeter controls, exposed applications, etc.	
D9	Solution should have ability to conduct the complete full kill chain of the attack. That is end to end attack execution from pre exploitation stage to exploitation to post exploitation.	
D10	Solution should have Ability to test attacker lateral movement through a single machine (once successfully within a network) - e.g., brute force or pass-the-hash techniques to steal credentials for sensitive servers, moving across network segments in search for valuable data	
D11	Solution should support Ransomware simulations	
D12	Solution should support Email security assessment (improper configuration or implementation of email filters)	
D13	Solution should support Endpoint Assessment - test security state of endpoints by comprehensively testing: automated behavioural detection (EDR), signature-based detection (anti-virus), known vulnerabilities including Windows patches.	
D14	Solution should support Extracting credentials from memory (Endpoint privilege escalation test)	
D15	Solution should support Executing local privilege elevation exploits (Endpoint privilege escalation test)	
D16	Solution should support Transfer and/or execution of malware on a test system (Endpoint malware download and execution test)	
D17	Solution should support Access, connection, or data transfer attempt (Network segmentation test)	
D18	Solution should support Data exfiltration attempt, such as file upload (Network data loss prevention (DLP test) on cloud drives (e.g. Gdrive, onedrive, dropbox, slack etc.)	
D19	Solution should support Access or data transfer to a malicious site (Secure web gateway / proxy test)	
D20	Solution should support Proxy tests - HTTP/HTTPS inbound/outbound exposure to malicious or compromised websites (web malware, malicious scripts)	

## RFP for procurement of Breach & Attack Simulation Solution

D21	Solution should have Ability to deliver safe tests with no chances of interfering with business operations, and no user interference when deployed on production assets	
D22	Solution should have Ability to perform continuous analysis and Historical trending ( alert, track, analyse, and remediate advanced malware that may at first appear clean or that evades initial defences and is later identified as malicious)	
D23	Solution should have Ability to simulate breach methods based on attacker profile (APT) and data assets to be protected	
D24	Solution should have Mechanism to identify remediation options and recommendations, prioritize severity of test findings and actionable remediation for each security control.	
D25	The Solution should provide POA (Proof of acceptance) for manual assessments / simulation along with Mitigation steps.	
D26	Solution should Continuously simulate breach methods to address changing risks, and track security posture via risk trending and historical reports.	
D27	Solution should have Test Security Operations Centre (SOC)rules by simulating a multi-vector attack	
D28	Solution should have Ability to create custom use cases / simulations attacks according to client requirement	
D29	Solution should Test effectiveness of security controls (real behaviour and outcome of controls) - e.g., identify configuration errors or defects	
D30	Solution Knowledge base should be extensive & should Describe how the library of breach and attack methods are created, managed, Updated and mapped to threat models.	
D31	The solution should provide technology vendor-specific remediation signatures and prioritization as mitigation recommendations	
D32	The Supplier proposed solution should have capabilities to allow for the detection or prevention of unauthorized modification of data.	
D33	Solution should able to do a lateral movement assessment from a single endpoint	
D34	The Supplier should validate and measure the detection and response capabilities of security pipelines and detection analysts in the SOC	
D35	The Supplier should verify SIEM alerts by simulating malicious activity (injecting events into a SIEM) to gauge whether it correlates them to generate the right alert (Monitoring SIEM tests)	
D36	The Supplier should address configuration, segmentation or implementation errors throughout the entire lifecycle of a security product	
D37	The Supplier should support processes to request and run network penetration tests against the service and report the results.	
D38	Solution should check inbound and outbound penetration of web gateway.	
D39	Solution should have integrated Email phishing simulation module	
D40	Solution should have integrated RECON or Reconnaissance or attack surface management feature built in.	
D41	The solution should supports Azure & AWS cloud endpoints.	
D42	The solution should support use cases specific to Kubernetes, Docker, Container deployments	
<b>E</b>	<b>Dashboards, Reporting &amp; Automation</b>	
E1	The solution must include graphical dashboards of the results of security effectiveness validation	
E2	The solution must include at least one graphical dashboard that provides quantitative results by numeric count and by percentage of attacks by stage	
E3	The solution dashboard must include summary reporting and visual graphs of the results of executed attacks	
E4	The solution must include the ability to export primary dashboards, reporting in PDF format	
E5	The solution must include REST API support with published documentation.	
E6	The API must include support for both JSON and XML formats	

**RFP for procurement of Breach & Attack Simulation Solution**

E7	The API must include the ability to create, update, and execute attacks and sequences of attacks and retrieve their results	
E8	The API must include the ability to export data used in any graphical dashboards and reports	

The bidder is required to provide exhaustive list of the hardware, software, etc. to implement the project.

NPCI

Dear Sirs,

**Re: RFP # NPCI/RFP/2022-23/IT/03 dated 29-06-2022 for "Request for Proposal for procurement of Breach & Attack Simulation Solution"**

Having examined the Bidding Documents placed along with RFP, we, the undersigned, offer to provide the required infrastructure in conformity with the said Bidding documents for the sum of Rs.....(Rupees.....) (exclusive of taxes) or such other sums as may be ascertained in accordance with the Schedule of Prices attached herewith and made part of this Bid.

We undertake, if our Bid is accepted, to provide External Cyber Threat Intelligence Solutions within the stipulated time schedule. We agree to abide by the Bid and the rates quoted therein for the orders awarded by NPCI up to the period prescribed in the Bid which shall remain binding upon us. Until a formal contract is prepared and executed, this Bid, together with your written acceptance thereof and your notification of award, shall constitute a binding Contract between us.

We undertake that, in competing for (and, if the award is made to us, in executing) the above contract, we will strictly observe the laws against fraud and corruption in force in India.

We have complied with all the terms and conditions of the RFP. We understand that you are not bound to accept the lowest or any Bid you may receive.

**NON-DISCLOSURE AGREEMENT (NDA)**

This Non-Disclosure Agreement ("**Agreement**") is made and entered on this ----- day of -----, 2022 ("**Effective Date**") between

**NATIONAL PAYMENTS CORPORATION OF INDIA**, a company incorporated in India under Section 25 of the Companies Act, 1956 (corresponding to Section 8 of the Companies Act, 2013) and having its registered office at 1001A, B Wing, 10th Floor, The Capital, Plot 70, Block G, Bandra-Kurla Complex, Bandra (East), Mumbai - 400 051, Maharashtra, CIN: U74990MH2008NPL189067 (Hereinafter referred to as "**Disclosing Party**", which expression shall mean and include unless repugnant to the context, its successors and permitted assigns);

**AND**

\_\_\_\_\_, a company/Partnership/Sole Proprietor/Association of People/ and having its registered office at \_\_\_\_\_ CIN; \_\_\_\_\_ (Hereinafter referred to as "**Receiving Party**", which expression shall mean and include unless repugnant to the context, its successors and permitted assigns).

Disclosing Party and Receiving Party shall hereinafter be jointly referred to as the "**Parties**" and individually as a "**Party**".

**NOW THEREFORE**

In consideration of the mutual protection of information herein by the parties hereto and such additional promises and understandings as are hereinafter set forth, the parties agree as follows:

**Article 1: PURPOSE**

The purpose of this Agreement is to maintain in confidence the various Confidential Information, which is provided between Disclosing Party and Receiving Party to perform the considerations (hereinafter called "**Purpose**") set forth in below:

**Purposes:**

- 1.
- 2.
- 3.
- 4.
- 5.

**Article 2: DEFINITION**

For purposes of this Agreement, "**Confidential Information**" means the terms and conditions, and with respect to Disclosing Party, any and all information in written, representational, electronic, verbal or other form relating directly or indirectly to the Purpose (including, but not limited to, information identified as being proprietary and/or confidential or pertaining to, pricing, marketing plans or strategy, volumes, services rendered, customers and suppliers lists, financial or technical or service matters or data, employee/agent/consultant/officer/director related personal or sensitive data and any information which might reasonably be presumed to be proprietary or confidential in nature) excluding any such information which (i) is known to the public (through no act or omission of the Receiving Party in violation of this Agreement); (ii) is lawfully acquired by the Receiving Party from an independent source having no obligation to maintain the confidentiality of such information; (iii) was known to the Receiving Party prior to its disclosure under this Agreement; (iv) was or is independently developed by the Receiving Party without breach of this Agreement; or (v) is required to be disclosed by governmental or judicial order, in which case Receiving Party shall give the Disclosing Party prompt written notice, where possible, and use reasonable efforts to ensure that such disclosure is accorded confidential treatment and also to enable the Disclosing Party to seek a protective order or other appropriate remedy at Disclosing Party's sole costs.

### **Article 3: NO LICENSES**

This Agreement does not obligate the Disclosing Party to disclose any particular proprietary information; to purchase, sell, license, transfer, or otherwise dispose of any technology, services, or products; or to enter into any other form of business, contract or arrangement. Furthermore, nothing contained hereunder shall be construed as creating, conveying, transferring, granting or conferring to the Receiving Party any rights, license or authority in or to the Confidential Information disclosed to the Receiving Party under this Agreement or to any information, discovery or improvement made, conceived, or acquired before or after the date of this Agreement. No disclosure of any Confidential Information hereunder shall be construed to be a public disclosure of such Confidential Information by the Receiving Party for any purpose whatsoever. This Agreement does not create a joint venture or partnership between the parties.

### **Article 4: DISCLOSURE**

1. Receiving Party agrees not to use the Disclosing Party's Confidential Information for any purpose other than for the specific purpose as mentioned in Article 1. Receiving Party agrees and undertakes that it shall not, without first obtaining the written consent of the Disclosing Party, disclose or make available to any person, reproduce or transmit in any manner, or use (directly or indirectly) for its own benefit or the benefit of others, any Confidential Information save and except both parties may disclose any Confidential Information to their Affiliates, directors, officers, representatives, agents, employees or advisors of their own or of Affiliates on a "need to know" basis to enable them to evaluate such Confidential Information in connection with the negotiation of the possible business relationship; provided that such persons have been informed of, and agree to be bound by obligations which are at least as strict as the recipient's obligations hereunder. For the purpose of this Agreement, Affiliates shall mean, with respect to any party, any other person directly or indirectly Controlling, Controlled by, or under direct or indirect common Control with, such party. "Control", "Controlled" or "Controlling" shall mean, with respect to any person, any circumstance in which such person is controlled by another person by virtue of the latter person controlling the composition of the Board of Directors or owning the largest or controlling percentage of the voting securities of such person or by way of contractual relationship or otherwise.
2. The Receiving Party shall use the same degree of care and protection to protect the Confidential Information received by it from the Disclosing Party as it uses to protect its own Confidential Information of a like nature, and in no event such degree of care and protection shall be of less than a reasonable degree of care.
3. The Disclosing Party does not make any representation or warranty as to the accuracy or completeness of Confidential Information. The Disclosing Party shall not be in any way responsible for any decisions or commitments made by Receiving Party in relying on the Disclosing Party's Confidential Information.

### **Article 5: RETURN OR DESTRUCTION OF CONFIDENTIAL INFORMATION**

The Receiving party agree that upon termination of this Agreement or at any time during its currency, at the request of the Disclosing Party, the Receiving Party shall promptly deliver to the Disclosing Party the Confidential Information and copies thereof in its possession or under its direct or indirect control, and shall destroy all memoranda, notes and other writings prepared by the Receiving Party or its Affiliates or directors, officers, employees or advisors based on the Confidential Information and promptly certify such destruction.

### **Article 6: INJUNCTIVE RELIEF**

The Receiving Party hereto acknowledge and agree that it would be impossible or inadequate to measure and calculate the Disclosing Party's damages from any breach of the covenants set forth herein. Accordingly, the Receiving Party agrees that in the event of a breach or threatened breach by the Receiving Party of the provisions of this Agreement, the Disclosing Party will have no adequate remedy in money or damages and accordingly the Disclosing Party, in addition to any other right or remedy available, shall be entitled to injunctive relief against such breach or threatened breach by the Receiving Party and to specific performance of any such provisions of this Agreement. Disclosing Party shall be entitled to recover its costs and fees, including reasonable attorneys' fees, incurred in obtaining any such relief. If the Receiving Party is aware of a suspected or actual breach of this Agreement from Receiving Party's side, it shall (i) promptly notify the Disclosing Party in writing

## **RFP for procurement of Breach & Attack Simulation Solution**

immediately; and (ii) take all reasonable and essential steps to prevent or stop any suspect or actual breach of this Agreement; (iii) Receiving Party shall cooperate with any and all efforts of the Disclosing Party to help the Disclosing Party regain possession of Confidential Information and prevent its further unauthorized use.

### **Article 7: NON-WAIVER**

No failure or delay by either party in exercising or enforcing any right, remedy or power hereunder shall operate as a waiver thereof, nor shall any single or partial exercise or enforcement of any right, remedy or power preclude any further exercise or enforcement thereof or the exercise of enforcement of any other right, remedy or power.

### **Article 8: DISPUTE RESOLUTION**

Notwithstanding anything contained in Article 6 and the express rights of the Disclosing party contained and provided thereto, If any dispute arises between the parties hereto during the subsistence or thereafter, in connection with or arising out of this Agreement, the dispute shall be referred to arbitration under the Indian Arbitration and Conciliation Act, 1996 (or any statutory modification or re-enactment thereof and rules framed thereunder from time to time) by a sole arbitrator appointed by Disclosing Party Arbitration shall be held in Mumbai, India. The proceedings of arbitration shall be in the English language. The arbitrator's award shall be final and binding on the parties.

### **Article 9: GOVERNING LAW AND JURISDICTION**

This Agreement shall be governed exclusively by the laws of India and jurisdiction shall be vested exclusively in the courts at Mumbai in India.

### **Article 10: NON-ASSIGNMENT**

This Agreement shall not be amended, modified, assigned or transferred by Receiving Party without the prior written consent of Disclosing Party.

### **Article 11: TERM**

This Agreement shall remain valid from the effective date till the time the Receiving Party is receiving Confidential Information or until the termination of this Agreement, whichever is later. This Agreement may be terminated by either Party by giving prior written notice of sixty (60) days to the other Party. However, the Receiving Party shall not be entitled to terminate this Agreement if there is subsisting business engagement between the Parties. Irrespective of the termination, the obligation of the Receiving Party to protect Confidential Information disclosed under this Agreement shall survive termination of this Agreement and shall remain in effect indefinitely.

### **Article 12: INTELLECTUAL PROPERTY RIGHTS, Media Disclosure, Publicity and Public Interaction**

**12.1** Receiving Party shall not use or permit the use of Disclosing Party's names, logos, trademarks or other identifying data, or infringe Patent, Copyrights or interact with media for any disclosure of findings or otherwise discuss or make reference to Disclosing Party in any notices to third Parties, any promotional or marketing material or in any press release or other public announcement or advertisement, however characterized, without Disclosing Party's prior written consent.

**12.2** Any interaction by the Receiving Party with media for any disclosure of findings, publicity, public interactions for undue advantage and/or any association whatsoever of Disclosing Party, without express consent/approval from Disclosing Party, shall result in breach, and for every incident of breach the Receiving Party shall be liable to pay the Disclosing Party, an amount which Disclosing Party, in its sole and absolute discretion, deems fit. This shall be without prejudice to the right of Disclosing Party to peruse any other right or remedy available to it under law.

### **Article 13: INDEMNITY**

In the event the Receiving Party discloses, disseminates or releases any Confidential Information received from the Disclosing Party, except as provided in this agreement, such disclosure, dissemination or release will be

## RFP for procurement of Breach & Attack Simulation Solution

deemed a material breach of this Agreement and the Receiving Party shall stop its breach of this agreement immediately and indemnify Disclosing party against losses resulting from its default, including the reasonable legal costs, which have been incurred by Disclosing party to investigate the default.

### Article 14: GENERAL

1. Nothing in this Agreement is intended to confer any rights/remedies under or by reason of this Agreement on any third party.
2. Any notices or communications required or permitted to be given hereunder may be delivered by hand, deposited with a nationally recognized overnight carrier, electronic-mail, or mailed by certified mail, return receipt requested, postage prepaid, in each case, to the address of the other party first indicated above (or such other addressee as may be furnished by a party in accordance with this paragraph). All such notices or communications shall be deemed to have been given and received (a) In the case of personal delivery or electronic-mail, on the date of such delivery, (b) In the case of delivery by a nationally recognized overnight carrier, on the third business day following dispatch and (c) In the case of mailing, on the seventh working business day following such mailing.
3. This Agreement and the confidentiality obligations of the Parties under this Agreement supersedes all prior discussions and writings with respect to the Confidential Information and constitutes the entire Agreement between the parties with respect to the subject matter hereof and any additional agreement, if any, shall be binding along with that relevant Agreement in addition to this Non Disclosure Agreement without affecting the provisions of this agreement. In the event where only this agreement is existing than the provisions of this Agreement shall prevail. If any term or provision of this Agreement is determined to be illegal, unenforceable, or invalid in whole or in part for any reason, such illegal, unenforceable, or invalid provisions or part(s) thereof shall be stricken from this Agreement or modified, rewritten or interpreted to include as much of its nature and scope as will render it enforceable. The remaining provisions will continue in full force and effect.
4. Any breach of any provision of this Agreement by Receiving Party hereto shall not affect the Disclosing party's non-disclosure and non-use obligations under this Agreement.
5. The Parties agree that all Confidential Information shall remain the exclusive property of the Disclosing Party and its affiliates, successors and assigns.

**IN WITNESS WHEREOF**, the parties hereto have duly executed this Agreement by their duly authorized representatives as of the Effective Date written above.
