

NPCI/UPI/OC - 117/2021-22

08<sup>th</sup> September, 2021

All UPI Members - Banks, PSP's & Third Party Applications

Dear Sir/ Madam,

**International merchant payments acceptance through UPI - UPI Global**

To enable Unified Payments Interface (UPI) globally, NPCI has introduced International merchant payments acceptance through UPI wide **NPCI/UPI/OC No. 93/2020-21 dated 04<sup>th</sup> Sept'20** with subject "**Introduction of International Merchant payments through UPI (UPI Global)**".

This enablement has provided extended functionalities to users, and has enabled the UPI payments solutions for international merchants. This functionality is already live in Singapore and Bhutan. Subsequently, NPCI will also be enabling other countries in the coming months.

It is necessary for all stakeholders i.e. Banks and TPAPs, to provide this feature to all UPI users for a rich and seamless experience. Hence, member banks, TPAPs & other payment providers shall enable the International merchant payments on UPI as mandatory feature by **31<sup>st</sup> December 2021**.

Thanking You,

SD/-
