

NPCI / 2013-14 / NACH/Circular 25

24th December, 2013

To

All members of the National Automated Clearing House (NACH)

Madam / Dear Sir,

Increase in limit set on NACH Credit (ECS) file size

NPCI is thankful to you for the support and encouragement for making the National Automated Clearing House (NACH) a successful platform for processing of payments which are bulk and repetitive in nature.

- 2) Based on the feedback received from participating banks, the maximum number of transactions that can now be uploaded in a single file (INP) has now been increased to 1, 00,000 from existing limit of 20,000 transactions in a file.
- 3) Apart from the above, the file size enhancement is also applicable for submission of return (RET) files by destination banks as illustrated in the Annexure.
- 4) The enhancement will enable banks to submit large files received from the users on the NACH platform and streamline operational efficiency at banks' end.

For any queries/further help required, please feel free to email at ach@npci.org.in

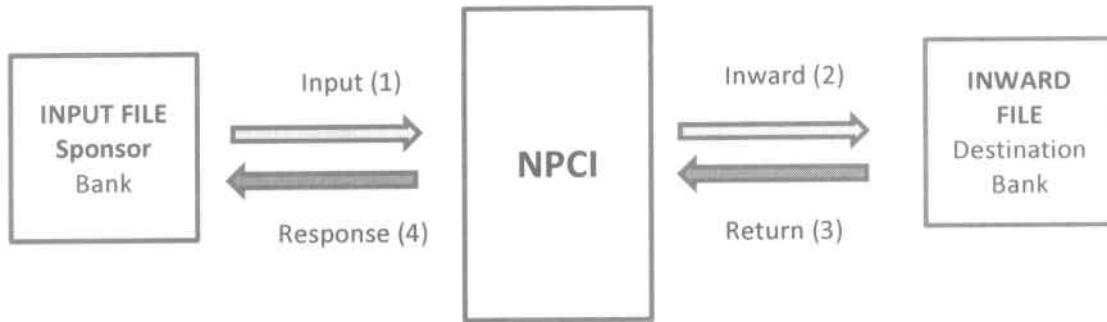

With warm regards

Vipin Surelia

Senior Vice President– NACH & Cheque Clearing

Annexure

1. Sponsor Bank uploads the transactions file on the NACH platform.
2. Destination bank downloads the inward files containing transactions drawn on it.
3. Destination bank uploads the uncredited items on the NACH platform.
4. Sponsor bank downloads the response file from the NACH platform.
